"STALWART
BARN PARENTS"

WHEN AND WHERE DID YOU START WITH HORSES?

My grandparents owned and bred Thoroughbreds in Pennsylvania. My aunt put me on the old farm horse when I was 2. I attended a Pony Club camps in Vermont and then I was addicted!! My family moved to California where I started taking lessons and showing when I was 8. I rode with the same trainer for 15 years. With that trainer, I worked with green horses from the race track through upper level hunters and jumpers. I catch rode and showed in the Juniors and qualified for the AHSA, International and Barbara Worth Medals four consecutive years, as well as competing in numerous Medal finals. I also showed in the Open Hunters and Open Jumpers my last year as a junior and as an Adult Amateur. At the age of 22, I started Magic Valley Equestrian School in Idaho, and served on the Idaho Hunter/Jumper Association for 5 years, putting on horse shows and showing clients' horses extensively. Continuing as a professional, I moved back to California, and had continued to compete at the A and B shows for the next 5 years, before moving to Reno in 1989, where I started Zephyr Farms.

WHO ARE YOUR MENTORS / INFLUENCES?

I was fortunate to be able to ride in clinics with Rodney Jenkins and Bert De Nemethy as a Junior. Both of these gentlemen are huge influences for me.

WHAT INSPIRED YOU TO START YOUR OWN FACILITY?

After riding with different trainers, I decided I wanted to open a facility where riding was fun, and where good riders, and horsemen were produced. I wanted a facility dedicated to good horsemanship not just winning ribbons. Teaching kids to be good horsemen and stay safe is of the utmost importance to me.

RULE REMINDERS

USEF Rule Reminder

"Caution against the use of Herbal/Natural Products"

The use of so-called herbal and natural products in a horse or pony might result in a positive drug test, i.e., a finding of a forbidden substance, contrary to claims by those who manufacture and/or market such products. For this reason, USEF cautions most strongly against the use of so-called herbal and natural products, the ingredients and properties of which are not know. In this regard, trainers should be most skeptical about claims by manufacturers or others that their preparation is "legal" or permissible for use at competitions recognized by USEF or FEI.

Just some of the hundreds and perhaps thousands of examples of herbal/natural or plant ingredients that would cause a product to be classified as forbidden are valerian, kava kava, passionflower, skullcap, chamomile, vervain, lemon balm, leopard's bane, night shade, capsaicin, cornfrey, devil's claw, hops, laurel, lavender, red poppy, and rawuolfia

SNHSA RULES:

"Qualifications for Year-End Awards"

WHAT ARE YOUR GOALS FOR YOUR STUDENTS?

I want to mentor students through the horses that come into their lives. Passing along my experiences and encouraging good life choices are also part of my goals for both me and my students. I want to develop safe horsemen with strong foundations.

WHAT DO YOU ENJOY DOING OUTSIDE OF HORSES?

Camping, fishing, swimming, dancing, and traveling.

HOW DO YOU SEE THE EQUESTRIAN INDUSTRY 10 YEARS FROM NOW?

There will always be a place for every facet of the horse business. I think the International level in the United States will become more popular, but there will still be a need for facilities with school master horses and teachers who focus on beginners.

WHAT IS YOUR FAVORITE SAYING?

Many years in the show ring taught me so much about myself, most of all that horses are the best teachers
